Technology and Media Use Agreement – SMADA Day Homes

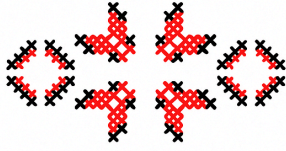

At SMADA Day Homes, we are committed to providing a nurturing and screen-free environment where technology is used thoughtfully and responsibly to enhance safety, communication, and developmental support. To maintain openness and trust, we ask families to review and sign this agreement, which explains how technology, media, and security tools are used in our program.

Media and Photo Sharing Policy

- **Daily Documentation:** Educators may take photos of children to capture learning experiences, achievements, and daily activities within the day home. These images may be:
 - Displayed inside the day home for educational or decorative purposes.
 - Shared securely through our private app, accessible only to enrolled families and authorized agency staff.
- **External Sharing:** Any photo or video shared outside the day home (for example, on public social media, websites, or promotional materials) will only be done with prior **written consent** from the parent or guardian.

Security Camera Use

- **Purpose:** Security cameras are installed to promote the safety and protection of children, staff, and the premises, and may also assist in emergencies.
- **Access and Confidentiality:** Recorded footage is stored for **48 hours to two weeks** and remains strictly confidential. Access is limited to authorized individuals—such as agency consultants, licensing officers, or child protection/law enforcement personnel—only when necessary.
- **Parent Notification:** Families will be informed of any security cameras in use, including their **exact placement** within the day home.

Screen Time Policy

At **SMADA Day Homes**, we prioritize hands-on, screen-free learning and play as part of our daily program. However, on occasion, technology may be used in a limited and purposeful way to support children's development and engagement. Examples include:

- **Movement and Gross Motor Activities:** Guided sessions such as *Cosmic Kids Yoga* or children's dance videos that encourage physical activity and coordination.
- **Educational Content:** Carefully selected, age-appropriate videos related to current learning themes or individual interests.
- **Quiet Time Support:** Read-along stories or calming visual content for older children, shown while younger children rest or nap.

Parental Consent

We deeply value collaboration between parents and educators. By reviewing and signing this agreement, parents acknowledge their understanding of and consent to the responsible use of technology and media practices within SMADA Day Homes.
